

TigerMat

High Quality Rubber & EVA Matting

Diamond Mat Rubber Top EVA

These mats are completely unique to TigerMat. They are an EVA foam mat with a harder rubber top that makes them more durable and longer lasting. They combine the benefit of the softer EVA matting with a harder wearing design.

The DiamondMats are offered in straight edge and interlocking variations. Please select the option that is best for your application. Ideal for horses and other applications.

The interlocking version comes with removable edging strips.
