

# TigerMat

High Quality Rubber & EVA Matting

## *Diamond Top Design* Maximum Grip

This heavy-duty rubber mat is designed for extra grip. These mats remain anti-slip when wet and therefore are popular in wash-down areas and passageways. The mats are high-density and the straight-edge version is suitable for bonding and sealing. The mats also come in interlocking variations on either the long sides only or on all 4 sides.

Please select an option that best suits your application.
